

Double Tier Decorative Cap

Elevate Your Design with Impact LED's Double Tier Decorative Cap

Transform your signage into a statement piece with our Double Tier Decorative Cap. Designed to add a touch of sophistication, this premium trim enhances any display with its bold, architectural presence.

Each tier of the trim stands 1.5" tall, creating a striking layered effect. The bottom level extends 1.5" beyond the light box's vertical measurement, framing your sign with a refined border, while the second level adds another 1.5" of depth for a commanding visual impact. Upgrade your sign with a finishing touch that exudes style, dimension, and distinction—only from Impact LED.
